

Application Serial No. 09/681,622
Attorney's Docket No.: 06666-033002

Amendments to the Specification:

Please replace the paragraph beginning at page 3, line 1, with the following amended paragraph:

Input beam 100 is input along a specified path ~~101~~ to a mirror 105. The mirror 105 is movable between first position 106, and second position 107. An electrostatic attraction module (ESM) can selectively control the position of the mirror. When actuated, the mirror is drawn towards the electrostatic actuation module, and hence moves to the second position ~~108~~ 108.
